## MATHS

## MATHS

|  |  |  | than one step e.g. which has the most biscuits, 4 packets of biscuits with 5 in each packet or 3 packets of biscuits with 10 in each packet <br> Recognise the relationships between addition and subtraction and rewrite addition statements as simplified multiplication statements e.g. $10+10+$ $10+5+5=3 \times 10+2 \times 5$ $=4 \times 10$ |  |  | including understanding the meaning of the equals sign <br> Solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates | context of a problem, an appropriate degree of accuracy |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Fractions |  | Recognise, find and name a half as one of two equal parts of an object, shape or quantity <br> Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity | Recognise, find, name and write fractions $1 / 3$, $1 / 4,2 / 4$ and $3 / 4$ of a length, shape, set of objects or quantity and demonstrate understanding that all parts must be equal parts of the whole <br> Write simple fractions for example, $1 / 2$ of $6=3$ and recognise the equivalence of $2 / 4$ and $1 / 2$ | Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 <br> Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators <br> Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators <br> Recognise and show, using diagrams, equivalent fractions | Recognise and show, using diagrams, families of common equivalent fractions <br> Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten <br> Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number <br> Add and subtract fractions with the same denominator | Compare and order fractions whose denominators are all multiples of the same number <br> Identify and name equivalent fractions of a given fraction, represented visually, including tenths and hundredths <br> Write equivalent fractions of a given fraction, represented visually, including tenths and hundredths <br> Recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements > 1 as a mixed number e.g. $2 / 5+4 / 5=6 / 5=11 / 5$ <br> Add and subtract fractions with the same denominator | Use common factors to simplify fractions; use common multiples to express fractions in the same denomination <br> Compare and order fractions, including fractions > 1 <br> Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions <br> Multiply simple pairs of proper fractions, writing the answer in its simplest form e.g. $1 / 4 \times$ $1 / 2=1 / 8$ <br> Divide proper fractions by whole numbers e.g. $1 / 3 \div 2=1 / 6$ | Divide proper fractions by proper fractions, including solving problems |

## MATHS

|  |  | Sequence events in chronological order using language e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening <br> Recognise and use language relating to dates, including days of the week, weeks, months and years <br> Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times <br> Measure and begin to record length/height | Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times <br> Remember the number of minutes in an hour and the number of hours in a day <br> Read scales in divisions of ones, twos, fives and tens <br> Read scales where not all numbers on the scale are given and estimate points in between <br> Read the time on a clock to the nearest 15 minutes | hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight <br> Know the number of seconds in a minute and the number of days in each month, year and leap year <br> Compare durations of events e.g. to calculate the time taken by particular events or tasks |  | Use all four operations to solve problems involving measure e.g. length, mass, volume, money using decimal notation, including scaling | Calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres ( $\mathrm{cm}^{3}$ ) and cubic metres ( $\mathrm{m}^{3}$ ), and extending to other units e.g. $\mathrm{mm}^{3}$ and $\mathrm{km}^{3}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Properties of Shape | Can select, rotate and manipulate shapes in order to develop spatial reasoning skills. <br> Investigates composing and decomposing shapes and recognises a shape can have other shapes within it, just as numbers can | Recognise and name common 2-D shapes e.g. rectangles (including squares), circles and triangles <br> Recognise and name common 3-D shapes e.g. cuboids (including cubes), pyramids and spheres | Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line <br> Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces <br> Name some common 2-D and 3-D shapes from a group of shapes or from pictures of the shapes and describe some of their properties (e.g. triangles, rectangles, squares, circles, cuboids, | Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them <br> Recognise angles as a property of shape or a description of a turn <br> Identify right angles and idenitfy whether other angles are greater or less than a right angle <br> Recognise that two right angles make a | Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes <br> Identify acute and obtuse angles and compare and order angles up to two right angles by size <br> Identify lines of symmetry in 2-D shapes presented in different orientations | Identify 3-D shapes, including cubes and other cuboids, from 2-D representations <br> Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles <br> Draw given angles, and measure them in degrees $\left({ }^{\circ}\right)$ <br> Identify angles at a point and one whole turn (total $360^{\circ}$ ) | Draw 2-D shapes using given dimensions and angles <br> Recognise, describe and build simple 3-D shapes, including making nets <br> Compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles, quadrilaterals, and regular polygons <br> Illustrate and name parts of circles, including radius, diameter and circumference and know | Extend understanding of the sum of interior angles of common polygons to include irregular polygons, and use this to find missing angles <br> Calculate the sum of external angles of polygons <br> Calculate the circumference of circles using $\pi$ (as 3.14 or 3.142) <br> Enlarge the dimensions of shapes by given scale factors |

|  |  |  | cubes, pyramids and spheres) <br> Identify 2-D shapes on the surface of 3-D shapes e.g. a circle on a cylinder and a triangle on a pyramid <br> Compare and sort common 2-D and 3-D shapes and everyday objects describing similarities and differences e.g. find 2 different 2-D shapes that only have one line of symmetry; that a cube and a cuboid have the same number of edges, faces and vertices and describe what is different about them | half turn, three make three quarters of a turn and four a complete turn <br> Identify horizontal and vertical lines and pairs of perpendicular and parallel lines | Complete a simple symmetric figure with respect to a specific line of symmetry | Identify angles at a point on a straight line and $1 / 2$ a turn (total $180^{\circ}$ ) <br> Identify other multiples of $90^{\circ}$ <br> Use the properties of rectangles to deduce related facts and find missing lengths and angles <br> Distinguish between regular and irregular polygons based on reasoning about equal sides and angles | that the diameter is twice the radius <br> Recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles | Use understanding of angles on a straight line, angles around a point, parallel and intersecting lines for find alternate angles <br> Solve problems involving Band 7 properties of shape skills |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Position and Direction |  | Describe position, direction and movement, including whole, half, quarter and three-quarter turns | Order and arrange combinations of mathematical objects in patterns and sequences <br> Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anticlockwise) |  | Describe positions on a 2-D grid as coordinates in the first quadrant <br> Describe movements between positions as translations of a given unit to the left/right and up/down <br> Plot specified points and draw sides to complete a given polygon | Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed | Describe positions on the full coordinate grid (all four quadrants) <br> Draw and translate simple shapes on the coordinate plane, and reflect them in the axis | Rotate polygons about a given point <br> Identify order of rotational symmetry for regular and irregular polygons <br> Understand the term congruence <br> Solve problems involving Band 7 position and direction skills |
| Statistics |  |  | Interpret and construct simple pictograms, tally charts, block diagrams and simple tables | Interpret and present data using bar charts, pictograms and tables | Interpret and present discrete and continuous data using appropriate graphica | Solve comparison, sum and difference problems using information presented in a line graph | Interpret and construct pie charts and line graphs and use these to solve problems | Interpret and construct scatter graphs and begin to identify correlations within these |

## MATHS

|  |  |  | Ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity <br> Ask and answer questions about totalling and comparing categorical data | Solve one-step and two-step questions e.g. 'How many more?' and 'How many fewer?' using information presented in scaled bar charts and pictograms and tables | methods, including bar charts and time graphs <br> Solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs | Complete, read and interpret information in tables, including timetables | Interpret and construct pie charts and line graphs and use these to solve problems | Plot, interpret and compare line graphs of linear functions <br> Begin to understand mode, median and range <br> Interpret a range of graphs, charts, tables and diagrams, relating summary statistics and findings to the questions being explored |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Algebra |  |  |  |  |  |  | Use simple formulae e.g. perimeter of a rectangle or area of a triangle <br> Generate and describe linear number sequences <br> Express missing number problems algebraically <br> Find pairs of numbers that satisfy an equation with two unknowns <br> Enumerate possibilities of combinations of two variables | Solve algebraic operations, including the use of brackets, following the rules of arithmetic <br> Simplify algebraic expressions by collecting like terms <br> Use index notation for small positive integer powers <br> Use graphs and set up equations to solve simple problems involving direct proportion <br> Solve number problems involving Band 7 algebra skills |
| Ratio and Proportion |  |  |  |  |  |  | Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and | Simplify ratios e.g. recognise that 12:3 can be simplified to $3: 1$ <br> Extend understanding of ratio and proportion to a |

## PARKLANDS PRIMARY SCHOOL SKILLS PROGRESSION

## MATHS

|  |  |  |  |  |  |  | division facts e.g. find 7/9 of 108 <br> Solve problems involving the calculation of percentages e.g. of measures, and such as $15 \%$ of 360 and the use of percentages for comparison <br> Solve problems involving similar shapes where the scale factor is known or can be found <br> Solve problems involving unequal sharing and grouping using knowledge of fractions and multiples | comparison of three or more quantities or values e.g. 3: 4: 2: 1 <br> Solve number problems involving Band 7 ratio and proportion skills |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
